

**PORTO  
TURISTICO  
DI ROMA**

# THE HARBOUR OF ROME

Inaugurated in June 2001, the harbour is found immediately south of the Tiber River delta, only 10 minutes away from Rome Fiumicino - Leonardo da Vinci International Airport from the beautiful ruins of Ostia Antica, in the former area of the seaplane airport of Ostia loved by the film director Pasolini.

The position is also strategically connected to the centre of Rome, which may be reached in just a few minutes on a light rail. The complex is based on a modern concept of harbour, with a network of integrated services offering a wide range of valid “at-sea” and “on-land” opportunities both for business and leisure.

The Harbour is also an oasis protected from noise and traffic, where visitors may walk in relaxation, enjoy sports activities, spend a holiday or simply a few hours of free time. Its morphology and geographic position make it a perfect location for shows and events, including sports, art, culture, promotional and communication initiatives.

# THE STRUCTURE

---

The harbour spans across a surface of about 200.000 m<sup>2</sup>, with full Wi-Fi coverage, and including:

- **833 dock spaces (B)** that may host mega-yachts up to 70 meters in length;
- **80 spaces** for stores, dining services, apartments, and offices;
- about **1200 meters of shared-use pedestrian and cycling promenade** with outlets on the Ostia beach;
- over **10.000 m<sup>2</sup> of exhibition space**;
- a **750-seat outdoor amphitheatre**;
- **2.300** outdoor and indoor **parking spaces**;
- a fully-equipped **shipyard** including a Travel Lift with a loading capacity of up to 400 tonnes;
- **law enforcement agencies and public offices:** Guardia di Finanza, Carabinieri, Police, Port Authority, and Post Office.

# WHERE SPORT AND SEA COME TOGETHER

---

The Porto Turistico di Roma, designed and constructed following the most innovative concepts of national marinas, has the aim of satisfying customer requests with a state-of-the-art offer: a package that has allowed the launch of its new project and position. Dynamism, energy, and versatility are the main traits of a project with Sport as its focal point. Cultural activities, events and competitions related to sports will be the driveshaft of a cutting-edge conception of dialogue with the new generations. The excellent accessibility on all levels and flexibility of its spaces allow them to be used to the fullest

by kids, families, and especially the disabled. The atmosphere, the stores and restaurants it encloses complete the range of services provided to attract all types of audiences, inviting guests to let themselves go with the location's infinite opportunities. The final aim is to make legality the backbone of a project with a clear overall view, through an accurate selection of events that may create a framework as distant as possible from its recent past and give the harbour a brand new image. Just a few miles from the Capital and the magical Ostia Antica, the Porto Turistico di Roma is a strategic asset

with the ambition of soon becoming the true beachside of Rome. The location of course offers all the equipment and services necessary for sea lovers: boat hire, excursions of the Lazio coast, docks, and support for navigation. The modern structures composing the harbour also lend themselves to hosting lessons, conventions, workshops, and seminars. Its abundant parking spaces and adaptability make it a sure future protagonist of Roman, national, and international events. Welcome to the Rome harbour.
